

FRASCA

LA GUARAGNA

FREISA D'ASTI D.O.C.

Grape Variety 100% Freisa

Vineyard municipality of Moasca;
average age of vines 20 years

Soil Sant'Agata fossili marls with a high
concentration of sand

Vinification 30% whole bunches
to highlight the fruit flavors; delicate
maceration, no punch down

Aging 4 months in a large oak barrel

Longevity best in the 3-5 years from
harvest, but will continue to surprise us
like a true Freisa

For us one of the oldest varieties
in Piedmont, its DNA is similar to
the Nebbiolo; a nose rich in raspberry
and roses, it speaks to us in our dialect!

On the label the magpie, faithful
and free-flying, holds a special place in
the hearts of Piedmontese winegrowers;
a celebration of our farms and their
inhabitants
